

Pre-procedure safety evidence record

Encounter SYN-ENC-BLOCKED-002 / Texas / neurotoxin / 20 Aug 2026

Record status	AWAITING HUMAN ATTESTATION
Gate verdict	CLEAR after documented remediation
Determination scope	Pre-procedure safety determination for human review
Patient	SYN-PATIENT-001 / fictional
Performer	SYN-PROV-RN-002 / documented delegated pathway

Human-signature boundary

The assembly agent completed reversible document composition and stopped. A Medical Director must review this record and complete the attestation through a human eSign action.

This record is synthetic. It contains no real patient, clinic, licence, lot, or signature.

Deterministic decision after remediation

Check ID	Status	Recorded fact
provider_license	PASS	TX / ACTIVE / unexpired / HIGH confidence
authority_pathway	PASS	Delegated-performer training documented
delegation_and_supervision	PASS	Order, protocol, BLS, and availability documented
preprocedure_assessment	PASS	Relationship, record, and performer disclosure present
product_lot	PASS	Lot captured; no captured alert; not authenticity certification
comprehension	PASS	Teach-back 2/2 on attempt 2; HIGH confidence
disciplinary_status	PASS	Captured status CLEAR

Frozen rule snapshot

447e16e6986870fd7ccf59a13e76d7c01cb8458019bf8f2567398290ace58cf4

The exact canonical rule JSON is stored with the Gate decision. Reproduction reruns the same evidence against that snapshot and compares the complete deterministic payload.

Primary sources and record limits

- 22 TAC Chapter 169 - Texas Register, adopted rules, 9 Jan 2025
- Texas Occupations Code Chapter 157 - delegation authority
- Texas Board of Nursing cosmetic-procedure practice guidance
- FDA Warning Letter 723267 - 1 Apr 2026
- AHRQ informed-choice and teach-back guidance

Bounded receipt language

This record proves which checks, evidence, sources, and rule snapshot were captured before the procedure. It does not certify legality, safety, product authenticity, provider quality, or outcome.
